innovate your business

High Quality, Archival

Kolo means quality. Archival quality, not merely “acid-free.” We were the first to innovate our fabrics making them long-wearing, water, dirt, and warp-resistant. And all Kolo products come with an ironclad guarantee our dealers can count on and are proud to represent. Our premium products attract premium customers, building loyalty through our brand, and to your store for the long run.

High Design

Attention to detail has driven Kolo’s popularity the world over, and our clean, design-forward collection speaks the same for its retailers. Modern. Creative. Distinct. And the bonus? Classic never goes out of style.

Greater than the Sum of its Parts

Kolo was the first to create a system. Our products all share a complementary form, function, and color palette. And our customers love growing their Kolo collections over time.

Nothing but the Best

We do 20 different quality control checks so you don’t have to. You can focus on what you do best: selling and caring for customers.

7 things that make Kolo different

1 the ingredients

Like good cooking, good design begins with good ingredients. We mill Kolo paper to our special recipe in a small American paper mill, ensuring it is genuinely archival and made to our aesthetic. Our book cloth is milled in Italy to our exclusive Kolo color palette. Our fabric is long wearing and treated to resist water and dirt. Heavy duty extra thick bookbinding board is milled in Europe and designed to resist warping and ensure archival qualities.

2 the craftsmanship

Our professional Kolo bookbinders consider making our photo books an art form. In a disposable frivolous world, we still value craftsmanship — the art of doing one thing well. Bookbinding is a part of everything we do. Designing something to be timeless... to last for centuries. This drives us. And since photographs are priceless to most people, the attention to detail has driven Kolo's popularity throughout the world.

3 the design

At the heart of any great photo album are the photographs. Why mess with a good thing? All Kolo albums are designed with your pictures in mind. No weird stuff. No frilly gold leaf. Just your photos as you caught them. Simple. Un-fussy. Beautiful. And the bonus? Simplicity never goes out of style.

4 the system

Kolo's collection is, first and foremost, a system... and one that is oh so greater than the sum of its parts. Each of our products plays well with others, sharing a complementary color palette, form, and function. They become a collection to be treasured more and more with the passage of time.

5 the quality

All Kolo products are archival, acid-free and lignin-free. Our quality control department checks every Kolo book in over 20 different areas for tolerances. And since we like our place at the top, Rochester Institute of Technology makes sure we stay there by testing our products regularly for adherence to the country's leading Archival Storage Standards.

6 the community

Ever have a friend so cool you wonder what you did to deserve them? How about a couple hundred thousand of 'em? Across the globe, young and old, Kolo customers are amazing. Artists and architects. Photographers and writers. Graphic, interior and clothing designers. Brides and grooms. Kids, old and new. Parents, travelers, professionals... and you. Ten years ago, ours was a small world, and today we're proud to span the globe. It's been an incredible ride, and the best is it's only beginning. So come on in and make yourself at home. We've got a few (thousand) friends to introduce you to... Visit www.koloist.com

7 the inspiration

We wrote the book on albums... literally. 192 pages strong. Teaming up with Cahoon Hollow Press, we set out to tell the story of the photo album and how vitally relevant it is to our everyday lives. Everything from how to shoot and sort, to store and share those perfect paper memories we call pictures. It's a beautiful book, and we're all proud, giddy parents. So get in on the fun... we've got a copy with your name on it.
